Guide to Selecting the Best Tripod or MonoPod for Your Needs

All **UNI-LOC** tripods utilize a single locking bent-bolt system, which locks the legs and center post in position with a quick twist. There are two sizes of **UNI-LOC** Tripods and MonoPods, the **Standard** series, which are made from 1¼" (30mm) outer tubes and 1" (25mm) inner tubes and the heavy-duty **Major** series, which are made from 1 3/8" (35mm) outer tubes and 1 1/8" (28mm) inner tubes. Both the **Standard** and the **Major** series come with a one-piece center column.

The size and weight of your equipment will dictate which of the two series that you'll need. You will also want to take into consideration the working height, collapsed size and weight from the specifications listed for each model. **Specifications shown after description are the maximum working height/folded length/weight.**

Do you need special or additional center column flexibility and options from your Tripod or MonoPod? You may choose to upgrade your Tripod or MonoPod with the **System** upgrade available for both tripod sizes. The **System** tripods have a three-piece center column, which includes a 90degree joint at one end to increase available camera positions. In addition, the center column components can be used with the tripod legs to form two monopods in seconds. The center column on all **system** tripods can be shortened, if needed, by removing a section of the column.

Standard Tripods

The **UNI-LOC Standard Tripod** is our general use tripod, perfect for photographers, videographers and in industrial applications. The **Standard** tripod is ideal for indoor or outdoor use, in difficult uneven or rugged conditions. The lower leg sections are fully sealed with spiked feet and can be immersed in mud and water. Non-slip rubber feet are included for indoor use.

<u>Item #</u>	<u>Description</u>	<u>Price</u>
1600	Model 1600 Tripod w/2 section legs (60" / 32"/ 5.3 lbs.)	\$ 269.00
TT	Table Top Tripod (20" /15"/ 2.9 lbs.)	\$ 165.00

Major Tripods

The **UNI-LOC Major Tripod** is our professional photographers and videographers choice. They are heavy-duty and sturdy providing essential stability in all weather and ground conditions. All Major Tripods have two section legs.

<u>Item #</u>	<u>Description</u>	<u>Price</u>
MA1220	Major 1220 Tripod (48" / 27"/ 6.8 lbs.)	\$ 305.00
MA1600	Major 1600 Tripod (63" / 31"/ 7.5 lbs.)	\$ 345.00
MA2300	Major 2300 Tripod (94" / 41"/ 8.6 lbs.)	\$ 415.00

System Tripods

UNI-LOC System Tripods are designed to meet the growing need for greater flexibility. **System Tripods** retain all the features of the **Standard** and **Major** tripods and with the turn of an Allen key can be transformed into a Monopod, walking stick, table top tripod or adapted in the field to service various other needs that a conventional tripod can't do. .

<u>Item #</u>	<u>Discription</u>	<u>Price</u>
<u>System Tripods</u>		
S1700	System 1700 Tripod (68.75" / 31.25"/ 6.6 lbs.)	\$ 349.00
